

REMARKS

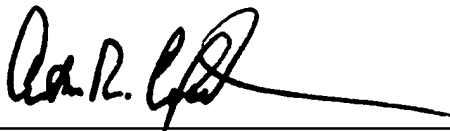

This Amendment accompanies a request for a Continued Prosecution Application (CPA). A Notice of Appeal was filed on February 2, 2001 and an extension of time purchased with the filing of the CPA. An interview was held with Examiner Kishore on January 10, 2001 and the attached evidence follows the discussions held at that time.

The claims have been amended to better define the invention and to relate to the evidence now provided. The mean particle size of 0.2 to 3 um now claimed finds basis in the disclosure at page 6, line 27.

Please examine the above claims taking into account the attached Declaration.

Respectfully submitted,

NIXON & VANDERHYE P.C.
